## **Actor's Headshot (\$110):**

**A headshot is the first impression you make and the last image you leave with a casting director, agent or manager.**

**It is integral that your headshot doesn't just look good, but also shows your personality. Our aim is to capture a natural looking image that you will feel confident presenting at your next audition.**

For just \$110 you get a photo session at up to two locations of your choice\* with up to four changes of hair/clothing so we can capture multiple 'looks' if that is what you want to achieve. We don't charge by the minute, so there is no stress about how long the session takes, but will usually be around 90 minutes.

(\*within Metropolitan Melbourne)

Once all your pics are done (around 100 shots) you will receive the proofs on CD with our suggested 'top 3'. You then select which three images will be digitally retouched and supplied to you on CD. You retain the right to reproduce all images.

(8"x10" (standard headshot size) prints can be ordered for \$5 each)

Wearing plain dark clothes is recommended for at least one of your 'looks', it is generally best to wear solid colours, without patterns or large logos. White is best avoided unless under a jacket. Don't wear something you ordinarily wouldn't wear or feel comfortable in - we want to get a natural looking photo which is difficult if you feel self conscious.

Makeup and hair tips will be given in a phone consultation to organise your session.
